Diagnosis and Connectivity

Workstation Console

User-friendly workflow for hassle-free operation

Dedicated diagnostic monitor for easier diagnosis

Remote Connectivity

- MiCo⁺ is a medical imaging IT solution that connects multiple imaging modalities and medical institutions.
- It provides a series of dedicated applications on variable platform for different clinical scenarios, such as telemedicine, online education, imaging quality control and so on.
- Through the connections among equipment, medical professionals, and institutions, it opens the door for professional and transboundary communities of creating better medical imaging service.

Streamlined design

Suitable for diverse clinical settings
